DETAILED ACTION

1. This Office action is in response to applicant's amendment filed on 11/6/08.
2. The indicated allowability of claims 1, 2, 4, 6-13 and 19-22 is withdrawn in view of the new rejections under 35 USC § 112, first paragraph.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1, 2, 4, 6-13 and 19-22 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.
5. Both independent claims 1 and 12 were amended in the communication filed on 11/29/07 to include the limitation of the catheter having a cylindrical wall comprising a sidewall formed therein and first and second slots (openings) formed in a portion of the sidewall, wherein the first and second slots (openings) are spaced apart radially and separated by a portion of the sidewall extending along the longitudinal axis. However, the claims are directed towards the embodiment shown in Figs. 25-28, which only shows one slot opening in the sidewall of the catheter. As disclosed in page 11, paragraph 4 of the specification, the embodiment shown in Fig. 25 and 26 only has one

Art Unit: 3773

slot 144. The embodiment shown in Fig. 27 is also disclosed to have only one slot opening 194, as cited in page 12, paragraph 1 of the specification.

6. Therefore, since the applicant did not have possession of the amended claimed subject matter at the time the application was filed, the amendment to independent claims 1 and 12 in the communication filed on 11/29/07 introduces new matter.
